Part No. ZUN26210 (860x63mm) (33.8x2.5in)

Part No. ZUN26310 (1200x110mm) (47.25x4.3in)

Part No. Custom Sizes Are Available

SILVER STAINLESS STEEL MESH BLANKS

(ELECTROPOLISHED)

Material Specification

The mesh that you have purchased has been manufactured from high quality stainless steel wire that complies to British Standard BS-EN 10088-1, X2CrNiMo17-12-2, (316L Equiv.) and accurately woven to achieve a uniform pattern. The mesh has a typical mesh aperture of 6.8 mm

Appearance & Protection

The mesh is cut and supplied to give a “diamond appearance” when fitted to the vehicle, this minimizes any waste and gives it the real “sporty look”.

The mesh is electropolished to give a bright finish and laboratory salt spray tests confirm that 1000 hours is achieved without evidence of corrosion.

The mesh when fitted to a grille aperture will provide protection to intercoolers and radiators from chippings, leaves and other road debris.

Take Care

The extreme edges of the mesh may be sharp and it is recommended that suitable gloves are worn when handling and working. Eye protection is advised when cutting the mesh.

Mesh Blank Stability

The edges of the mesh blank have been resistance welded to retain the original pattern, if there is need to cut the material to a size to meet with your requirements then if possible include two sides of the blank. If the mesh cannot be cut to include one or two of the sides then ensure that its original pattern is set before fitting or it can be fitted to your own chosen pattern.

Fitting to Vehicle

The material can be cut with a good pair of side cutters or other suitable tool; take care not to damage the wire or coating.

Suitable fixings and adhesives can be purchased to secure the mesh for your personal application. We have experience of using a structural adhesive that provides excellent adhesion on clean surfaces, (PC 85 Adhesive).

Any Queries?

If you have any queries on your purchase our Technical Services will be pleased to assist. E-Mail to info@zunsport.co.uk or telephone 0300 3032605.

THANK YOU FOR CHOOSING A ZUNSPORT PRODUCT.
